Company Overview

ZutaCore is a global organization focused on revolutionizing cooling solutions for the data center industry. We are a dynamic and rapidly expanding startup company specializing in the development of innovative direct-on-chip cooling systems. Our cutting-edge technologies address critical needs in the thriving data center market. We foster a purpose-driven culture built on passion, optimism, and a genuine commitment to our customers and each other.

At ZutaCore:

- We share a compelling vision and uphold a strong company culture.
- We are unwavering in our commitment to delivering high-quality products and services.
- We consistently set the industry standard for exceptional service.
- We believe that with determination and creativity, anything is possible.
- We operate as a unified team, fostering a culture of collaboration and winning.
- We take proactive action and assume accountability for our responsibilities.

Responsibilities

- Support R&D in multi-disciplinary projects, component sourcing, and engineering documents.
- Ongoing production support and maintenance.
- Creating new BOMs and product files
- Drive and manage ECO processes.
- Drive and manage NPI processes - Transfer new products from development to production.
- Serve as engineering focal point to our contract manufacturer.
- Solve problems in the production line, manufacturability, and product cost.

Qualifications

- BSc in Mechanical Engineering, or similar fields.
- 2 years' experience in transfer to production (T2P).
- Experience with SolidWorks, PDM, and Priority ERP.
- Team player and highly motivated.
- Excellent English skills: verbal, writing, and reading.
- Experience with manufacturing in HVAC industries – an advantage.
- Experience with vendor management – an advantage.

Join ZutaCore:

At ZutaCore, we offer a stimulating work environment where talented professionals can thrive. If you are passionate about cutting-edge technologies, eager to contribute to a dynamic team, and dedicated to delivering excellence, we invite you to apply today. Join our purpose-driven culture and help shape the future of data center cooling solutions.
